

**FOR IMMEDIATE RELEASE**

**EURAMAX CANADA INTRODUCES  
PRO-MASTER ROOF SHIELD UDL  
SYNTHETIC ROOFING UNDERLAYMENT**

Barrie, ON, January 12, 2009.

**Euramax Canada, Inc. introduces Pro-Master Roof Shield UDL Synthetic Roofing Underlayment. Superior to traditional roofing felt, this can be used with asphalt shingles, wood shakes, standing seam metal roofing, synthetic and natural slate, as well as tile roofing. Pro-Master Roof Shield UDL is made of UV stabilized material rated for one-year exposure. It is lightweight at 28 lbs., 10 sq. per roll and is non-slip coated for safety. Pro-Master Roof Shield UDL is printed with nail pattern and alignment guides and its 52" width makes for a quicker installation.**
