

Yardcrafters Railing is a Premium Vinyl Railing System for use in Code Compliant installations of guardrails on balconies or decks\*, and decorative railings installed on low level wood decks or porches.

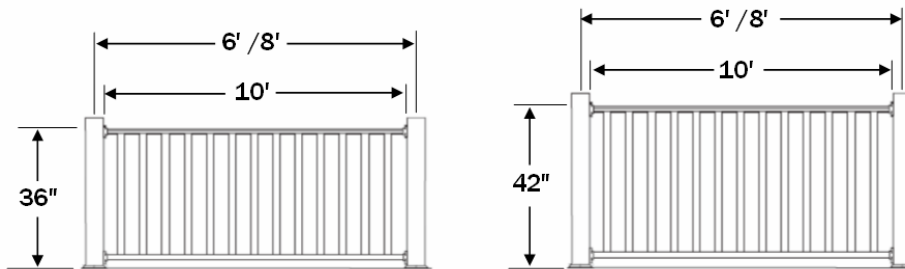

*\*Yardcrafters railing system meets the load requirements for guardrails in Canada!*

**STYLES**

The railing system is offered in two styles: **Classic** square balusters, or **Colonial** ‘turned’ spindles.

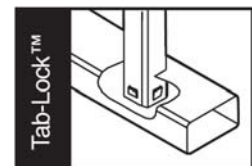

**SIZES**

**SELLING FEATURES**

- **Tab-Lock™ Balusters – Easy to install and structurally secure!**
- **Extremely Durable – Guaranteed for life!**
- **Maintenance Free – Saves time and money!**
- **Steel Reinforced – Meets building codes!**

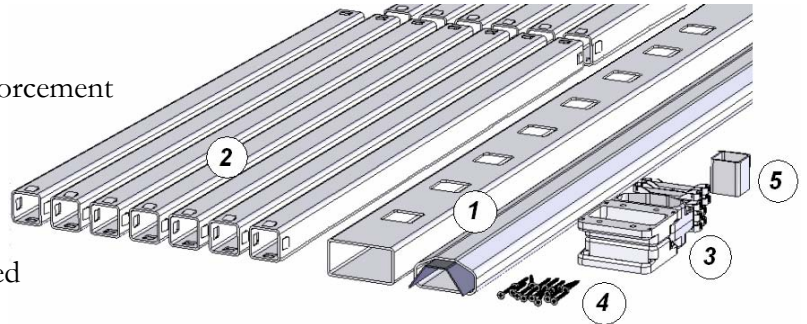

**ANSWERS TO FAQs**

- All fasteners required for post anchors are included in the Post Anchor Kit box. The post leveling screws are located in the bottom portion of the steel post, secured by tape – these can sometimes be hard to locate
- For rail sections other than standard lengths, select the rail kit longer than the required length, the rail can then be cut down to length
- Post Wraps are used to wrap existing wood columns (4x4 or 6x6). To sleeve posts of non-standard length, select the *POU96* 4x4 post sleeve and cut to desired length

## RAILING KITS

The main components of a railing section are contained in an easy to select **KIT**. The kit includes the following components:

1. Top and bottom rails – including steel reinforcement
  2. Pre-counted spindles or balusters
  3. Connectors to mount rails to posts
  4. All necessary fasteners
  5. Centre Support Leg
- Comprehensive Instructions – pictorial based
