- Economical 6 inch x 20 foot rolls.
- 8 rolls needed for average home.
- Durable co-polymer material - black.

Installation

Simple.

Gutter Guard Girders

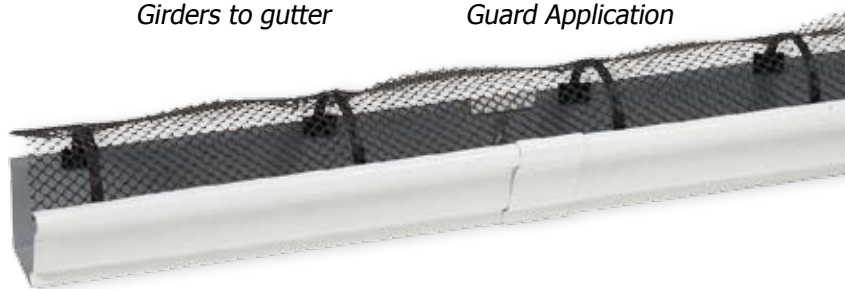

Rolled Plastic Gutter Guard

Attach Gutter Guard Girders to gutter

Plastic Gutter Guard Application

Gutter guards

are installed on rain gutters to help prevent leaves, twigs and other debris from falling into the gutters and clogging both the gutters and downspouts.

Obstructed gutters and downspouts will prevent rain water and melting snow from flowing through the gutter system.

Water that cannot flow freely can back-up and overflow the gutter causing damage to the landscaping and the foundation.

Damage to the roof line and the fascia board may also occur if water gets behind the gutter or ice dams form under shingles.

Hinged Gutter Guard

Helps Keep Leaves and Debris Out of Gutters.

- Convex design prevents debris accumulation.
- Made of long lasting galvanized steel, aluminum, copper or powder painted steel.
- Will not collapse under ice, snow or debris.
- 50 lengths needed for average home.

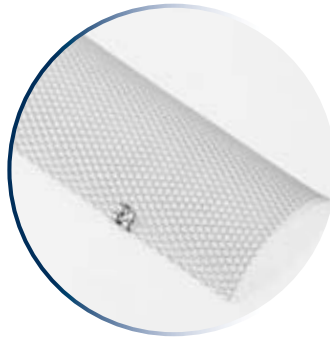

Installation

Simple.

The hinged gutter guard installs in seconds with a push of the thumb. Handy three-foot sections fit any standard "K" style gutters. Simply clip the stainless steel hinges to the front of the gutter.
